POVIDONE IODINE SOLUTION

**Standardised
Microbicidal Solution**

INDICATION

Topical antiseptic solution that kills gram-negative and gram-positive bacteria, fungi, viruses, protozoa and yeasts. Film-forming, virtually non-irritating and non-staining to skin, hair and natural fabrics.

SPECIFICATIONS

- External Use Only
- For Professional Veterinary Use Only Use Full Strength For:
- Pre-operative prepping of skin and mucous membranes
- Preventing bacterial infection
- Emergency antiseptics of minor lacerations, abrasions, and burns
- Post-operative application to surgical incisions
- Use on companion animals, including dogs, cats, and horses

USES

- For preparation of the skin prior to surgery
- Helps to reduce bacteria that potentially can cause skin infection

DIRECTIONS

- Apply full strength to skin or surgical preparation site
- Wet area thoroughly to ensure complete coverage and penetration, but avoid "pooling" Allow to dry
- May be covered with bandage
- For use on companion animals, including dogs, cats, and horses

WARNINGS

- FOR EXTERNAL USE ONLY
- Do not use this product in the eyes, on food-producing animals
- When using this product do not heat prior to application
- Prolonged exposure to wet solution may cause irritation or, rarely, severe skin reactions in pre-operative prepping, avoid "pooling" beneath the animal
- Stop use and ask a veterinarian In rare instances of local irritation or sensitivity.
- Keep out of reach of children.
- If swallowed, get medical help or contact a Poison Control Center right away.
